The 3rd Annual ECD & Foundation Phase Western Cape Conference 2026, proudly hosted by Eminence Corporate Solutions, is a premier platform dedicated to advancing early learning and foundational education in South Africa. Scheduled to bring together educators, policymakers, researchers, civil society leaders, and development partners, this year's gathering continues the vital work of strengthening the earliest years of a child's educational journey.

Early Childhood Development (ECD) and Foundation Phase education are globally recognised as the cornerstone of lifelong learning and social progress. In South Africa, the sector is undergoing a period of rapid transformation, with increased policy attention, investment, and innovation. Against this backdrop, the 2026 conference will spotlight cutting-edge research, scalable solutions, and inclusive practices that ensure every child is given the opportunity to thrive.

Themed around innovation, inclusivity, and sustainability, the program will feature keynote addresses, plenary discussions, and case studies on critical issues such as:

- Strengthening professionalism and leadership in the ECD workforce
- Leveraging technology and AI responsibly in early learning
- Nutrition, health, and wellbeing in the early years
- Policy reforms, funding models, and registration frameworks for ECD centres
- Community-driven interventions for vulnerable contexts
- Global and local best practices shaping South Africa's early learning landscape

Delegates will benefit from interactive dialogues, evidence-based insights, and practical tools that bridge the gap between policy and practice. By fostering collaboration across sectors, this conference seeks to empower educators, influence policymakers, and inspire communities to reimagine the future of education — starting with the foundations.

Now in its third year, the conference has become a signature convening in the Western Cape, known for shaping conversations that matter, building partnerships that last, and catalysing change that impacts children, families, and society at large.

Children are naturally curious, and that curiosity should be encouraged and nurtured."

WHY SHOULD THEY ATTEND?

Networking: Connecting with professionals across various sectors to collaborate and share best practices.

Learning and Development: Engaging with new research, educational methods, and trends in the ECD and Foundation Phase sectors.

Policy Impact: Contributing to or learning about educational policies and initiatives shaping the future of childhood education in the Western Cape and beyond.

Showcasing Solutions: Vendors and EdTech companies can showcase their products and solutions to a highly relevant audience.

Resources: Librarians and educational professionals can gain access to new resources, tools, and materials for enhancing early learning experiences.

The conference should be attended by anyone directly involved in ECD and Foundation Phase education, including educators, administrators, policy makers, vendors, and specialists from related sectors like child health, librarianship, and early learning technologies. Vertical companies that provide educational resources, tools, and services for young learners should also be present to showcase innovations in the field.

Why the ECD MASS REGISTRATION DRIVE?

The government recognises the important and valuable work ECDs offer children, communities and livelihoods across South Africa. We are aware of the various contexts in which ECDs operate, and understand that there have been many barriers to registration that have made the application process complex and time consuming.

For this reason we have developed a new registration process to complete the application for Bronze status that is:

- **SIMPLER**
- **FASTER**
- **OFFERING YOU LIVE SUPPORT**
